

ACCESSORI / MONITORS

Monitor ThinkVision T24D-4v da 23,8"

64B7UAT1EU

- EAN: 0198157459489
- Warranty: 3 anni limitata
- Windows Certification: Windows 10, Windows 11

Features

Descrizione prodotto

Il monitor ThinkVision T24D-4v è la soluzione perfetta per te. Dotato della certificazione Microsoft Teams, è progettato per semplificare al massimo la tua esperienza di collaborazione online. Pur apparendo compatto dall'esterno, lo schermo senza bordi da 23,8" offre spazio sufficiente per visualizzare due finestre affiancate. Il pulsante Teams integrato ti consente di accedere alle riunioni con un semplice clic. Goditi contenuti privi di scatti e con colori accurati grazie al pannello IPS, con una frequenza di aggiornamento variabile da 48 a 120 Hz e una copertura dello spazio colore sRGB al 99% e BT.709 al 99%. La risoluzione FHD nitida garantisce immagini chiare e definite, sia che si tratti di documenti o di colleghi in videoconferenza. Due microfoni con cancellazione del rumore, insieme a due altoparlanti da 5W e alla funzione VoIP, assicurano che tutte le videoconferenze e le riunioni si svolgano senza intoppi. Oltre alle numerose opzioni di ingresso, l'uscita DP consente di collegare in cascata un altro monitor per raddoppiare lo spazio di lavoro. Approfitta della connettività avanzata grazie alla soluzione di docking a cavo singolo del monitor, che può fornire fino a 100W di alimentazione, oltre a dati e connessione Internet. Usufruisci di un'esperienza di accesso rapido supportato da Windows Hello. Migliora la collaborazione con i colleghi utilizzando i sensori intelligenti del monitor e le funzionalità di intelligenza artificiale (inquadratura intelligente del volto, rilevamento di più persone e controllo intelligente del volume), mentre la fotocamera da 5 MP garantisce immagini cristalline in ogni riunione. Aumenta la produttività in tutti i flussi di lavoro collegando un'ampia gamma di dispositivi tramite l'hub USB ThinkVision e carica i dispositivi con un'erogazione di potenza fino a 15W utilizzando la porta USB-C downstream. Durante le lunghe ore di lavoro la tecnologia a bassa emissione di luce blu naturale protegge gli occhi dalla luce blu dannosa senza alcuna distorsione del colore. Grazie al supporto LTPS flessibile, che consente di sollevare, inclinare, ruotare e orientare il monitor, regolalo nella posizione ergonomica che preferisci. Inoltre il nuovo sensore intelligente integrato aiuta il monitor a migliorare la tua esperienza d'uso avvisandoti se non mantieni la distanza appropriata, ricordandoti di camminare spesso e spegnendo lo schermo quando ti allontani.

Funzioni principali

23,8", pannello IPS, frequenza di aggiornamento variabile 48-120 Hz
Monitor VOIP con webcam da 5 MP e 2 altoparlanti integrati da 5W
Controllo LADM e gestione remota LDFM
